Faculty Position in Environmental Health (EH)
Department of Civil and Environmental Engineering
Tufts University

The Department of Civil and Environmental Engineering (http://engineering.tufts.edu/cee) at Tufts University (http://www.tufts.edu/) seeks candidates for a tenure-track faculty position in Environmental Health at the level of Associate or Full Professor, with rank determined by experience and accomplishments. Exceptional candidates at the level of Assistant Professor will be considered. Candidates must possess a doctoral degree in public health engineering, environmental engineering, public health, biostatistics, or a related field.

We seek applicants capable of conceptualizing and conducting research and teaching across the widening spectrum of environmental health challenges present in the world today. The successful candidate will be able to design and assess environmental health interventions, through demonstrated expertise in such areas as trial design, data analysis, water-borne diseases, epidemiology, and public health engineering. Preference will be given to candidates who have international experience, particularly in the developing world. Principal responsibilities will include the establishment of an externally-funded research program, graduate and undergraduate instruction, and University and professional service. The successful candidate will join an Environmental Health program with strengths in occupational and environmental health, epidemiology, biostatistics, site remediation, toxicology and risk assessment, and water, sanitation, and hygiene programs. Preference will be given to candidates with a proven record of scholarship and research interests that offer opportunities for collaborations with faculty across the School of Engineering, the School of Arts and Sciences, the Cummings School of Veterinary Medicine, the Friedman School of Nutrition Science and Policy, the School of Medicine, and the Fletcher School of Law and Diplomacy.

Tufts’ School of Engineering (SOE) distinguishes itself by the interdisciplinary focus and integrative nature of its engineering education and research programs, within the intellectually rich environment of both a “Research Class 1” university and a top-ranked undergraduate institution. The past eleven years have been a period of extraordinary growth for SOE at Tufts, with recruitment of over half of its current tenured and tenure-track faculty members and a more than three-fold increase in research expenditures. Tufts offers the best of a liberal arts college atmosphere, coupled with the intellectual and technological resources of a major research university. Home to seven graduate and professional schools across three campuses, Tufts University prides itself on its culture of cross-school partnerships. Located on Tufts' Medford/Somerville campus, only six miles from historic downtown Boston, SOE faculty members have extensive opportunities for academic and industrial collaboration, as well as participation in the rich intellectual life of the region.

Questions about the position should be addressed to Dr. David M. Gute, search committee chair, david.gute@tufts.edu . Candidates should submit their application, including a cover letter, curriculum vitae, statement of research and teaching objectives, and contact information for three references to Academic Jobs Online (https://academicjobsonline.org/ajo/jobs/5576) Review of applications will begin on September 15, 2015 and will continue until the position is filled. Tufts University is an Affirmative Action/Equal Opportunity Employer. We are committed to increasing the diversity of our faculty, and thus, women and members of underrepresented groups are strongly encouraged to apply.
