

Seminar Series

Fall 2015

CEE 292: Graduate Environmental Seminar

All seminars are on Tuesdays from 3:00 to 4:15 pm unless listed otherwise
Nelson Auditorium, 112 Anderson Hall, Tufts University, Medford campus

NOTE: This is an archived list. Current faculty profiles can be viewed at
<https://engineering.tufts.edu/cee/people/faculty>

September 8, 2015	Flood regimes and uncertainties: a voyage through scales <i>Jose Salinas, Visiting Scholar, Tufts University; and Univ. Ass. Dipl.-Ing, Vienna University of Technology</i>
September 15, 2015	Climate Change Risk Assessment and Management: Several Case Studies, toward a reproducible framework <i>Patrick Ray, Research Professor, University of Massachusetts at Amherst, (Tufts MS/Phd)</i>
September 22, 2015	Adapting to Extreme Events: Household Response to Floods in Urban Areas <i>Maura Allaire, Post-doctoral Researcher, Columbia University, (Tufts BS)</i>
September 29, 2015	Local Integrated Catchment Modelling (ICM) Work: Coming Full-Circle <i>Ana Fernandes, MWH Global, (Tufts BS/MS) (The first WSSS student!)</i>
October 6, 2015	Synthesis on National Water Use : Spatial Patterns and Controls <i>A. Sankarasubramanian, Professor, North Carolina State University, (Tufts PhD)</i>
October 13, 2015	Is the Food, Energy, and Water Nexus a Useful Framework? <i>Peter Rogers, Professor, Harvard University</i>
October 20, 2015	Spatial and temporal patterns in streamflow across the conterminous United States <i>David Wolock, U.S. Geological Survey, Kansas</i>
October 27, 2015	Hydrologic Similarity Across the United States: Understanding change, information transfer, and classification. <i>Stacey Archfield, U.S. Geological Survey, National Research Program, (Tufts PhD)</i>
November 3, 2015	Researching and Solving Problems of Water Quantity and Quality at a Nonprofit Research Institute <i>Michele Cutrofello Eddy, RTI International, Water and Ecosystems Management Center, Research Triangle Park, North Carolina (Tufts BS/MS)</i>
November 10, 2015	<i>This is a Wednesday at Tufts, so there is no seminar this week, Veterans day is Nov 11 and is a holiday at Tufts.</i>

November 17, 2015	Urban Heat Island and Health Impacts: The Role of Land-Based Mitigation Strategies <i>Kevin Lane, Postdoctoral Research Associate, Yale Climate & Energy Institute Fellow, Yale School of Forestry & Environmental Studies</i>
November 24, 2015	Bulletin 17C and Advances in Flood Frequency Analysis for the United States <i>Jery R. Stedinger, Professor, Cornell University, Dept. of Civil and Environmental Engineering</i>
December 1, 2015	Climate Change Adaptation: Methods and Case Studies <i>Paul Kirshen, Professor, University of Massachusetts, Boston (Cofounder of Tufts WSSS Program)</i>
December 8, 2015	Preparing for the Next Sandy <i>Alan Blumberg, George Meade Bond Professor & Director of The Center for Maritime Systems, Stevens Institute of Technology, Hoboken, N.J.</i>
