

Seminar Series

Fall 2017

Environmental Engineering Seminars

Unless listed otherwise, all Environmental Engineering seminars were on **Tuesdays from 3:00-4:00pm**, in Nelson Auditorium, 112 Anderson Hall, Tufts University, Medford campus.

NOTE: This is an archived list. Current faculty profiles can be viewed at <https://engineering.tufts.edu/cee/people/faculty>

September 5, 2017	Course introductions <i>Natalie Capiro</i> <i>Tufts University</i>
September 12, 2017	The "actual" water renewal time in a large deep lake <i>Marco Pilotti</i> <i>Università degli Studi di Brescia (Italy)</i>
September 19, 2017	Science is a conversation <i>All dept-Engineering librarians</i> <i>Tufts University</i>
September 26, 2017	Learning the how and why of keeping your research organized <i>All dept-Engineering librarians</i> <i>Tufts University</i>
October 3, 2017	Vapor Intrusion Considerations Under Massachusetts Regulations <i>Jim Young</i> <i>Cooperstown Environmental</i>
October 10, 2017	Vulnerability of Groundwater Resources in Bangladesh <i>Holly Michael</i> <i>University of Delaware</i>
October 17, 2017	Arsenic and Groundwater Security in Bangladesh <i>William Burgess</i> <i>University College London</i>
October 24, 2017	TBD <i>John Tobiason</i> <i>UMass-Amherst</i>
November 7, 2017	Non-Stick Science: Sixty Years of Research and (In)Action on Fluorinated Compounds <i>Phil Brown</i> <i>Northeastern University</i>

November 14, 2017	Data Visualization <i>All dept-Tania Alarcon Tufts University</i>
November 28, 2017	TBD <i>Mark Laquidara Private consultant in Environmental Engineering industry</i>
December 5, 2017	Variety of topics <i>All dept-Assistant Professor panel Tufts University</i>

Civil Engineering Seminars

Unless listed otherwise, all Civil Engineering seminars are on **Fridays from 1:30-3:00pm**, in Nelson Auditorium, 112 Anderson Hall, Tufts University, Medford campus.

September 22, 2017	The Behavior of Crushable Granular Materials <i>Juan M. Pestana Geosyntec Consultants, Inc.</i>
September 29, 2017	Using BIM/VDC to Design and De-Risk Public Infrastructure Projects <i>Paul Pedini Skanska USA</i>
October 6, 2017	How to Decide on Capital Investments When Your Need Far Exceeds Your Supply <i>Frank Depaola AECOM</i>
October 13, 2017	Evolution of Drilled Shafts in the Northeast <i>John Roma Skanska USA</i>
October 20, 2017	Longfellow Bridge Construction <i>Ed Taylor JFWhite</i>
October 27, 2017	Iconic Infrastructure: The Building of the Panama Canal <i>Lewis Edgers Tufts University</i>
November 3, 2017	Foundation Design and Construction of the New NY Bridge

	<i>Robert Palermo</i> <i>GZA Geoenvironmental</i>
November 10, 2017	Holiday
November 17, 2017	Design, Construction and Field Testing and Monitoring of an Experimental Soil-Bentonite Cutoff Wall <i>Jeffrey Evans</i> <i>Bucknell University</i>
November 24, 2017	Holiday
