   a. Tufts EH&S Annual Laboratory Safety Course: Date completed:  
      User Initials:  
      Lab Manager:  

The user will be responsible for safe and thoughtful use of this shared facility. The user recognizes that there are hazards associated with using this facility, and agrees not to hold Tufts University or its employees liable for injury, loss of property, or death that may result from use of the facilities, except in cases of gross negligence on the part of Tufts University or its employees. The user may not use a piece of equipment until they have been trained on it, and checked out by laboratory staff or experienced users. The user will be required to supply their own wafer boxes and substrates (wafers), and any specialty chemicals that are not available in the fab. The user is required to gain permission to bring any new chemicals into the facility by emailing the lab director, and may be required to supply an MSDS and a description of how the chemical will be used. The user is required to report any accidents or suspected damage to the tools. The user may be required to participate in periodic lab cleans which will be arranged by email.
